

[Bpm Studio Pro 4.9.9.4 Crack Download](#)

3.01. The Program Window of BPM Studio

The program window contains following modules:

Player A

Player B

Play list for player A

Play list for player B

Sample Player

BPM File Archive

The lower and center areas (play list, and file archive) are multi functional.

The center area, containing both play lists, can be switched to single play list, or wait list view.

The lower area displays optionally either file archive, mixer, or CD-player/ripper. Read the referring sections on how to switch to the according sub modules.

The following chapter covers structure, and functionality of these modules in detail. To quickly get into working with BPM Studio, we recommend the step-by-step instructions in chapter 4.

The appearance of the program window can be changed completely. (Skin support) In program options (Chapter 3.18.), choose a skin you like. On the ALCATech website, (www.alcatech.com) a "design-pack" with tools and hints for your own skin creation is available for download.
